Programming

Next.js ★★★★★
TypeScript ★★★★★
React Js ★★★★★
Tailwind
CSS ★★★★★
Material-UI ★★★★★
NodeJs ★★★★★

Skill Highlight

- **Front-end:** NextJs(13,14 version), TypeScript, ReactJs, Redux, Context api
- **Back-end :** GraphQL ,NodeJs
- **UX/UI:** Material-UI, Tailwind CSS, React-Bootstrap, Shadcn, Emotion CSS
- **Database :** SQL Server
- **Version Control :** GitHub, Gitlab
- **Problem Solving :** JavaScript (Leetcode Profile)

Experience

Oct 2022 - Present **Software Developer**

Fanfare Bangladesh

- Developed complex UI and implemented the CMS/Back-Office portal for FanFare, an e-commerce-centric social platform, facilitating seamless deployment and operation. Fanfare has 4.6 lacs active users.
- Integrated admin panel interfaces with backend APIs using GraphQL, ensuring smooth data exchange and real-time updates.
- Design and implement responsive and user-friendly admin panel interfaces. utilizing modern frameworks and libraries (Next.js, TypeScript, Material UI) for enhanced performance and scalability.
- Led the front-end development for the "Shorts" project, a no-code designer tool integrated into the MyGP app, allowing non-technical users to create and manage content seamlessly within the app. Build and integrate the CMS with Next.js, GraphQL, TailwindCSS, and Shadcn.
- **Project Demo Link:** Fanfare Bangladesh
- **Project Playstore Link:** Fanfare Bangladesh App

Oct 2021 - Sept 2022 **React Developer**

Bdtask Limited

- Enhanced Block Chain Software user experience based on user feedback with implementation. Developed modern-day UI components to improve application performance.
- Writing application interface code via NextJS and ReactJS workflows.

Sept 20 - Oct 2021 **Jr. Software Developer**

Virducation

- Developed Virducation's virtual learning platform using React Js with the critical user interface and responsiveness as per business requirements.
- API integration and optimization of UI.

Personal Skills

Projects

MOVIX - Movie searching site

[Personal Project](#)

- **Role:** Movix Single Page Responsive Web Application for movie search.
- **Technical Stack:** : React Js, Redux Toolkit, SCSS, React Router DOM
- **Live link:** MOVIX

Car Rental- Vehicle Booking Site

[Personal Project](#)

- **Role:** Full Stack fully functional Car rental app. with login, add to cart, car rent, date pick up etc
- **Technical Stack:** Next Js 13 App using React, Tailwind CSS, GraphQL, HyGraph, Typescript
- **Live link:** Car Rental

E-commerce site -Fake Store

[Personal Project](#)

- **Role:** : Functionale-commerce site. with login, add to cart, product buy, etc
- **Technical Stack:** NextJs 14 App using React, Tailwind CSS, Redux, GraphQL, Fake store API
- **Live link:** Fake Store

Professional Course

June 22 - Dec 22

Professional Programming with NodeJs , Express

- **Course Details:** Learned Node, Express, MongoDB, and Mongoose (MongoDB JS driver), encryption, sanitization, rate limiting, etc, and NoSQL Server. I also learned about repository patterns as well as other solid principles.

Jan 21 - May 21

Full Stack Web Development

[Programming Hero](#)

- **Course Details:** Learned HTML5, CSS3, Bootstrap, ReactJS, Redux, MongoDB, Rest API, Firebase

Education

Year 2020

Bsc in Computer Science and Engineering

CGPA is 3.08 at 4 scale

[Southeast University](#)

Programming Contest

- Code Samurai 2019, Inter-University Hackathon(SEU EndGame, Final Position 19th)
- National Girls Programming Contest 2019 Final(SEU EndGame)
- Participated on ICPC (International Programming Contest)2019, 2017,2016
- Lead Volunteer at ICPC 2019, Dhaka Regional Contest.
- Worked as an Executive member body (Treasurer) of SEU Computer Club 2019.
