  - **User Interface Development**: Collaborated with cross-functional teams to design and implement responsive and user-friendly admin panel interfaces.Translated design into pixel-perfect code to interface.
  - **Front-End Architecture**: Designed and maintained the front-end architecture, utilizing modern frameworks and libraries (Next.js,TypeScript, Mterial UI) for enhanced performance and scalability.Implemented state management solutions to streamline data flow and improve user experience.
  - **Integration and APIs**: Integrated admin panel interfaces with backend APIs using GraphQl, ensuring smooth data exchange and real-time updates.Collaborated with backend developers to define API requirements and troubleshoot integration issues.
- **Project Live Link**: Fanfare Bangladesh
- **Project Playstore Link**: Fanfare Bangladesh App

Oct 2021 - Sept 2022 **React Developer** Bdtask Limited

- **Responsibilities:** Enhance Block Chain Software user experience based on user feedback with implementation.Writing application interface code via Javascript and ReactJS workflows.Developed modern-day UI components to improvise application performance.

Jan 20 - Oct 2021 **Jr.Software Developer** Virducation

- **Responsibilities:** Developed Virducation's virtual learning platform using React Js with the critical user interface and responsiveness as per business requirements. Also API integration and optimization of UI.

Projects

2022 **Full-Stack AMAZON Clone**   Personal Project

- **Role:** Accounts and Login Page,Products Page,Cart and Checkout Page,Real Payments ,Order History Page
- **Technical Stack:** : ReactJs ,NodeJs, MongoDB
- **Live link:** Amazon Clone

2021 **Cooking Master**   Personal Project

- **Role:** : Its an site for recipe searching.
- **Technical Stack:** React Js,JavaScript, Bootstrap,JQuery,API,ES6.
- **Live link:** Recipe Search

2021 **Tesla Clone**   Personal Project

- **Role:** : This is the clone of Tesla.com site using React Redux.
- **Technical Stack:** HTML,Reactjs ,Redux, Styles-Components
- **Live link:** Tesla Clone

2020 **Pioneer Bank**   Personal Project

- **Role: login bank account and deposit,withdraw,Balance check**
- **Technical Stack:** ReactJs ,JavaScript, ES6,HTML, CSS, Bootstrap.
- **Live link:** Bank

2021 **Discover Fly**   Personal Project

- **Role:** Book ticket, add ticket, remove ticket
- **Technical Stack:** : HTML,CSS,JavaScript,ES6,Bootstrap.
- **Live link:** Book Tickets

2020 **Online Super shop Management System**   Southeast University

- **Role:** Super shop management system, customer and admin management, CRUD operation.
- **Technical Stack :** HTML, CSS, JavaScript, Bootstrap, PHP.
- **Project link:** Bazar Shodai

Professional Course

June 22 - Dec 22 **Web Application Development with Laravel**   Dev Skill

- **Course Details:** Learned PHP Basic, OOP , Laravel, Database Design, SQL operation,Ajax, Bitbucket, Git

Aug 21 - Oct 21 **Jump Start Career Program**   Spring Rain Pvt Ltd

- **Course Details:** Learned HTML5, CSS3, Javascript ,Ecmascript ,NodeJS ,ReactJS ,Redux ,MySQL ,MongoDB ,REST ,Microservice,Git

Jan 21 - May 21 **Complete Web Development Course (Full Stack)**   Programming Hero

- **Course Details:** Learned HTML5,CSS3,Bootstrap, ReactJs,Rest API, Firebase

Education

Year 2020	**Bsc in Computer Science and Engineering** CGPA is 3.08 at 4 scale	Southeast University
Year 2014	**Higher Secondary Certificate** GPA 4.70 out of 5 scale	Safiuddin Sarker Academy and College
Year 2012	**Secondary School Certificate** GPA 4.63 out of 5 scale	Safiuddin Sarker Academy and College

Programming Contest

- Code Samurai 2019, Inter-University Hackathon(SEU EndGame, Final Position 19th)
- National Girls Programming Contest 2019 Final(SEU EndGame)
- Participated on ICPC (International Programming Contest)2019, 2017,2016
- Lead Volunteer at ICPC 2019, Dhaka Regional Contest.
- Worked as an Executive member body (Treasurer) of SEU Computer Club 2019.
